

# MOVING

Nicola Atkinson/NADFLY & Stevie Jackson

Moving standing still  
Putting everything in boxes  
hiding away  
to another place  
No returning gave your notice

Tired of looking  
Stuff gets hidden  
I love packing useful things never to be seen  
things in boxes  
Buckets of cables  
blank envelopes  
elastic bands  
and bundles of string  
all those things I might need again

Things you can't take  
Bits you leave behind  
Jam jars full of cumin, coriander and basil  
Moving standing still  
Sorting my life out

Wishes are granted  
New beginnings are started.

Wishes are granted  
New beginnings are started.

**Music Master Class in the Gallery  
Friday 9 December 2011, 7 - 9pm**

Stevie and Nicola have created four Scottish work songs.  
You are invited to a music master class, with singing and acoustic  
instruments ( please bring your own) on 9 December 2011.  
You will finally become part of the music performance in the urban:  
sanctuary gallery on 10 December at 8pm.

# LORRIES

Nicola Atkinson/NADFLY & Stevie Jackson

Lorries are splendiferous  
High up looking at the technicolour world  
Electric blue now I'm falling asleep at the wheel

My dad he was a cowboy, then he was a pirate  
He said look down below, my ship is moored over there

Looking up at the big sky  
Stopping off at the lay bay  
Fuelling up on chocolate biscuits with you

In a twilight state  
Meeting up at Kincardine  
You said, "It's 1936 and we're on the road again"

I miss trust ambition  
That's why I need the folk tradition  
A simple melody  
We're on our way again

Looking up at the big sky  
Stopping off at the lay bay  
Electric blue cause I'm falling asleep at the wheel

Lorries are splendiferous  
High up looking at the technicolour world  
Electric blue now I'm falling asleep at the wheel

Daddy was in vaudeville, and then he was in radio  
Then he dealt in magic  
pulling rabbits from a hat

Wow, wow wow, look at that

# CUP WORKS

Nicola Atkinson/NADFLY & Stevie Jackson

Get set up unwrap the clay  
Look at the 10kilo bags  
How many cups can I make?  
As many as I can

Grab the wire, take the cut  
Make into cubes small and large and medium  
My favourite part of the day  
It's time to throw the clay

Start the wheel with electricity  
Center the clay  
Holding it with intensely  
I don't know if it's the right way  
Its my way all the same

I listen to conversations when I work stare at the radio.  
sometimes they say some things that make me hurt  
but the keep the wheel still a turning

1st firing 900 centigrade  
perfection on the way  
Every cup I ever handle carefully  
I set free despite it's broken destiny  
I never regret

..... the hot and cold days ahead
